### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hespos on May 12<sup>th</sup> 2005.

The application has been amended as follows:

#### IN THE CLAIMS:

Claim 8 (amended): A terminal fitting made of a conductive plate material stamped out into a specified shape, comprising:

a main body;

a coupling extending from an outer peripheral edge of the main body; [and]

a wire connection portion extending from an extending end of the coupling; [and]

a reinforcing means formed by folding at least one reinforcing plate so that at least a portion of the reinforcing plate is placed on the coupling; and

an engaging hole being formed in one of the coupling and the reinforcing plate in an area where the reinforcing plate is placed on the coupling, an engaging projection formed in the other of the coupling and reinforcing plate and engaged with the engaging hole for preventing displacements of the coupling [in] and the reinforcing plate along a thickness direction and displacements along direction parallel to facing surfaces thereof.

Claim 12, line 8, delete "the", first occurrence.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: deleting Figure 22. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance: regarding claim 1, the prior art of record does not teach or suggest a terminal fitting comprising all the features as recited in the claims and in combination with a reinforcing plate extending unitarily from the second panel and lying in substantially face-to-face engagement with the coupling that extends from the first panel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
